### Can You Tell which Sentences are True and which are False?

Riesci a dire quali frasi sono vere e quali sono false?

I live in a quiet town in the countryside. There is a post office near my apartment, and there's a pharmacy on the main road. There are three supermarkets, so it's easy to buy food. There is also a library where I sometimes go to read or work. On Saturdays, there's a small market in the square. There are a few good restaurants and two cafés with outdoor seating. In the evening, there isn't much to do, but there is a nice walking path near the river. I like it because there are friendly people and everything is close.
